## mental in Obtaining Transportation to Hall.

Trough an arrangement made by Commissioner Newman with the Metropo litan Coach Company, delegates to the D. A. R. Congress will be afforded adequate transportation from Fifteenth street and Pennsylvania avenue to Continental Hall. A ten-minute service was put into effect today, and tomorrow, acof the coach company, it is hoped to

Request for the service was made by Commissioner Newman in response suggestions from delegates to the co gress. In his letter to the coach co pany. Mr. Newman said that while it might not be possible for the Public Utilities Commission officially to order an extension of the service, he felt the company might agree to "render this company might agree to "render this service from the standpoint of good citizenship, and interest in making visitors to the city comfortable."

In reply Mr. Lincoln said the company had heretofore been forced to decline the undertaking because of the knowledge that it would not meet the expenses of operation. "Your letter." expenses of operation. "Your letter.

# MT. RAINIER BOND

## Sewer, Water, and Light Im-Many Taxpayers.

Strong opposition has developed Mt. Rainier, Md., just across the District line, tothe proposition to bond the town for sewer, water, and electric light plants. The town is divided into two factions-those who favor and are advocating the improvements and those who are opposing them.

Handbills and circulars are being distributed, going into details of the argu-

The proposition now pending is to bond the town for \$125,000, the bonds to run forty years. Opposition is based on the ground that the expenditure of the ey an dthe issuance of the bonds will increase the tax rate to such an extent that they will effect real estate values. The proposed rate 6 per cent, is also claimed to be exorbitant. It is further contended that Hyattsville, just beyond Mt. Rainier, paid only \$30,000 for a water works system, the money being raised by a bond issue at interest of 4 deed of trust for the balance. James C. Rogers, one of the founders

"In the first three years, the tax-payers will have paid \$22,500 in interest alone and only \$2,000 on the principle.

In other words, they will have paid during the first three years within \$5.500 of the whole cost of putting in water works in the town of Hyattsville. and only \$2,000 will have been paid on the principal."
